

MODEL

RGD5000

ALTERNATOR

Type

Brushless, Self-exciting, 2-poles, single phase

Voltage regulator

Condens0er type

Maximum output W

4800

Rated output W

4300

Rated power factor

1.0

Rated frequency Hz

50

Rated voltage V

220

DC output V-A

12-83

Over current protector

No-fuse breaker

ENGINE

Model

DY41D

Type

Air-cooled, 4cycle, Diesel engine

KW/HP

8.5/6.3

Displacement Cm3

412

Fuel

Automotive Diesel Fuel

Fuel tank capacity Liter

16

Rated continuous operation (Approx.) hours

9.4

Starting system

Recoil (Electric starter)*

Dimension

Length mm

673

Width mm

500

Height mm

542

Dry Weight Kg

95

Specifications are subject to change without notice.

- Electric starter is available as option
